CONSOLIDARE CONTINUUM S.R.L.
Societatea cu Răspundere Limitată „CONSOLIDARE CONTINUUM” · IDNO 1026023120076
Republic of Moldova · Registered 09.07.2026 (CUD2026027832)
Seat: str. 31 August 1989, nr. 139, apt. 24, MD-2004, Buiucani, Chișinău

DEED OF INTELLECTUAL PROPERTY ASSIGNMENT AND CORPORATE DECISION

Product: Hesperia · Language: English (parallel to Romanian state-language original)

Document No. CC-HES-IP-ASSIGN-2026-07-26 | Effective date: 26 July 2026
Prepared for electronic signature (qualified e-signature / advanced e-signature / wet-ink).

1. Parties

1.1 Transferor (Assignor) — natural person
PLATONOV IGOR, natural person, creator of the novatory ideas and author-implementor of the Hesperia product; acting under personal and brand identities including igareosh.com, prichindel.com, and GitHub github.com/igareosh (the “Transferor”).

1.2 Transferee (Assignee) — company
Societatea cu Răspundere Limitată „CONSOLIDARE CONTINUUM” (“CONSOLIDARE CONTINUUM” S.R.L.), IDNO 1026023120076, seat as above, represented by its Administrator, PLATONOV IGOR (sole shareholder 100% / administrator / beneficial owner) (the “Company” / “Transferee”).

The same natural person appears in both capacities. This deed records vesting of product IP from the natural-person / prior-brand trail into the registered company for corporate custody, NDA-based collaboration, and further development under Company title.

2. Object of assignment

As of the Effective Date, the Transferor irrevocably assigns, transfers, and vests in the Company all right, title, and interest worldwide in the Hesperia product line, including:

- source code, scripts, configurations, tests, calibration and sealed assets;
- architecture, specifications, Reference Architecture Definition (RAD), naming discipline, and design materials;
- research, documentation, parameter/wiki work, modular branch architecture, and related written work;
- product naming “Hesperia” to the extent owned by the Transferor;
- git history and repositories in §3 as creation and proof-of-work evidence;
- copyrights, neighbouring rights, and related IP, whether registered or not.

The assignment is exclusive. No shared rights are retained. No public disclosure or open licence is granted. Third-party access only under Company written agreement (including NDA) or court order.

3. Source repositories — creation dates and commit evidence

Evidence extracted on 26 July 2026 from local clones and GitHub metadata:

Repository	GitHub created (UTC)	First commit	Commits	Role
igareosh/hesperia	2026-02-09T22:09:19Z	2026-02-09 · 26f33c97 Initial commit	HEAD ≈ 390 all ≈ 413	Dev source

Atomic-Commits-Team/hesperia	2026-02-18T13:29:44Z	Root 26f33c97 (2026-02-09)	HEAD ≈ 390 all ≈ 419 Seal 0.7.0 · 0fcbe899	Prod / consulting
igareosh/hesperia-dev-backup	2026-03-14T19:50:25Z	Backup mirror line	Aligned to sealed tips	Backup
Consolidare-Continuum/hesperia	2026-07-26T09:22:24Z	Atomic history + corporate overlay	HEAD ≈ 391+	SRL brand home

Author evidence (prod clone, all refs): igareosh 272; Ubuntu 75; Igor 65; Gena 2; Cursor 1; Grace (via Cursor) 1. Machine identities on Transferor-controlled hosts are attributed to Platonov Igor. Assistant commits under Transferor direction do not create third-party ownership.

Milestone tags: 2026-02-18 backup-before-mirror; 2026-02-20 v0.2; 2026-02-22 v0.3.0; 2026-02-24 v0.4.0; 2026-03-12 HESPERIA_RAD_FREEZE; 2026-03-14 v0.4.1_clean / v1.0.0 line; sealed system_version 0.7.0 (2026-07-25).

4. Naming, research, and proof of work

From empty ideas, the Transferor built Hesperia through iterative engineering and research, including product naming and ISO-grade naming discipline; RAD freeze; modular Class A/B architecture; TFP research; parameter/wiki exports; FPF bridge and agentic interface work; calibration dictionaries and sealed releases. Commit messages and tags in §3 are contemporaneous proof of work. Product maturity does not limit the assignment.

5. Representations

The Transferor represents that he is the creator and author-implementor of the Hesperia materials described herein; has authority to assign; knows of no conflicting exclusive licence preventing assignment; and that prior brand notices (igareosh.com, prichindel.com, personal) are historical and superseded for this product line by Company ownership as of the Effective Date. The Company accepts the assignment and will hold Hesperia as proprietary Company property in private repository `Consolidare-Continuum/hesperia`.

6. Governing law and custody

Governed by the laws of the Republic of Moldova. The electronically signed or wet-ink original shall be kept in the Company legal dossier (Lane A). This PDF is retained under `docs/corporate/` as the engineering-visible legal decision record. Registry and bank documents are not published in the product repository. Romanian state-language version: `ACT-CESIUNE-DPI-HESPERIA-CATRE-CONSOLIDARE-CONTINUUM-SRL-2026-07-26.pdf`.

7. Corporate decision

As sole shareholder and Administrator of CONSOLIDARE CONTINUUM S.R.L., Platonov Igor decides and records that as of 26 July 2026 the Hesperia product IP described herein is Company property, and further work (including under NDA with mentors/collaborators) proceeds under Company title.

8. Signatures — electronic signature page

Two signatures required — the same natural person in two capacities.
Apply electronic signature (or wet-ink) inside each boxed field below.

SIGNATURE 1 — TRANSFEROR

Capacity: Natural person
Platonov Igor
igareosh.com · prichindel.com
GitHub: github.com/igareosh

Signature / Semnătura — electronic or wet-ink / electronică sau olografă

Digitally signed by Platonov Igor
